SUBJECT INDEX

- Altrenogest
 Use of altrenogest alone or in combination with PMSG to control the preovulatory LH surge in gilts 147
- Artificial insemination
 Influence of season on characteristics of the ejaculate from bulls in an A.I. centre in Nigeria 187
- Behaviour
 Behavioural and hormonal responses of sexually-experienced Ile-de-France rams to oestrous females 293
 Effect of a teaser bull on ovarian and behavioural activity of suckling beef cows 263
- Birth weight
 Factors affecting length of gestation and birth weight of Nili-Ravi buffaloes 195
- Bromocryptine
 Effect of chronic treatment with bromocryptine on the corpus luteum function of the cow 95
- Buffalo
 Factors affecting length of gestation and birth weight of Nili-Ravi buffaloes 195
 Induction of ovulatory oestrus in true anoestrous buffaloes during low breeding season 233
 Postpartum ovarian activity, uterine involution and fertility in indigenous buffaloes at a selected village location in Sri Lanka 115
- Cattle
 Effect of a teaser bull on ovarian and behavioural activity of suckling beef cows 263
 Effect of chronic treatment with bromocryptine on the corpus luteum function of the cow 95
 Effect of uterine luminal perfusion of PGF_{2α} and PGE₂ on uterine vasomotor response and PGF_{2α} output in cyclic cattle 103
 Epitestosterone and oestrogen concentration in plasma of cows during induction of parturition with prostaglandin F_{2α} 245
 Factors related to the etiology of retained placenta in dairy cattle 251
 Follicular populations during the estrous cycle in heifers
 I. Influence of day 165
 II. Influence of right and left sides and intraovarian effect of the corpus luteum 177
 Influence of season on characteristics of the ejaculate from bulls in an artificial insemination centre in Nigeria 187
 Pituitary responses to a challenge test of GnRH and oestradiol benzoate in postpartum and regularly cyclic dairy cows 1
 Prepubertal and peripubertal changes in secretory patterns of LH and FSH in beef heifers 85
 Progesterone receptors in the endometrium of normal and repeat-breeder cows 11
 Repeatability of reproductive performance of beef bulls as yearlings and two-year-olds at pasture 21
 Seasonal variation in the semen characteristics of Muturu (*Bos brachyceros*) bulls 31
- Cervix
 Gross and histological changes of the postpartum genitalia of Savanna Brown goats 65
- Chicken
 Spermatogenic activities of the left and right testes of hemicastrated and intact cockerels 157

Cloprostenol	
Doses of prostaglandin analogue "cloprostenol" by intravulvo-submucosal (IVSM) injections effective for the induction of oestrus in goats	139
Corpus luteum	
Effect of chronic treatment with bromocryptine on the corpus luteum function of the cow	95
Follicular populations during the estrous cycle in heifers.	
II. Influence of right and left sides and intraovarian effect of the corpus luteum	177
Deciduoma formation	
Uterine histamine content in mast-cell deficient (W/W ^v) mice during experimentally induced deciduoma formation	75
Embryology	
Embryonic mortality caused by maternal heat stress during mouse oocyte maturation	309
Progesterone receptors in the endometrium of normal and repeat-breeder cows	11
Endocrinology, female	
Doses of prostaglandin analogue "cloprostenol" by intravulvo-submucosal (IVSM) injections effective for the induction of oestrus in goats	139
Effect of chronic treatment with bromocryptine on the corpus luteum function of the cow	95
Fibrinolytic activity in ovaries of rats and golden hamsters after gonadotrophic stimulation and hypophysectomy	301
Perioestrous patterns of circulating LH, FSH, prolactin and oestradiol-17 β in the gilt	205
Pituitary responses to a challenge test of GnRH and oestradiol benzoate in postpartum and regularly cyclic dairy cows	1
Plasma follicle stimulating hormone in Merino ewes immunized with an inhibin-enriched fraction from bovine follicular fluid	39
Plasma FSH concentrations in seasonally anoestrous ewes induced to ovulate with repeated injections or continuous infusion of GnRH	53
Prepubertal and peripubertal changes in secretory patterns of LH and FSH in beef heifers	85
Progesterone receptors in the endometrium of normal and repeat-breeder cows	11
Treatment with progesterone affects follicular steroidogenesis in anoestrous ewes	273
Use of altrenogest alone or in combination with PMSG to control the preovulatory LH surge in gilts	147
Endocrinology, male	
Behavioural and hormonal responses of sexually-experienced Ile-de-France rams to oestrous females	293
Growth, testicular and endocrine function of boars exposed to 8, 16 or 24 hours of light daily before puberty	239
Endometrium	
Gross and histological changes of the postpartum genitalia of Savanna Brown goats	65
Progesterone receptors in the endometrium of normal and repeat-breeder cows	11
Enzymology	
Sterol sulfatase activity in the reproductive tract of the ewe	129
Epitestosterone	
Epitestosterone and oestrogen concentration in plasma of cows during induction of parturition with prostaglandin F _{2α}	245
Fertility, female	
Postpartum ovarian activity, uterine involution and fertility in indigenous buffaloes at a selected village location in Sri Lanka	115

Fertilization	
Sterol sulfatase activity in the reproductive tract of the ewe	129
Fibrinolysis	
Fibrinolytic activity in ovaries of rats and golden hamsters after gonadotrophic stimulation and hypophysectomy	301
Fluorogestone acetate	
Genetic basis of variation in reproductive performance. 1. Ewe lambs treated with fluorogestone acetate and PMSG in a controlled environment	281
Follicle	
Follicular population dynamics during the estrous cycle of the mare	219
Follicular populations during the estrous cycle in heifers.	
I. Influence of day	165
II. Influence of right and left sides and intraovarian effect of the corpus luteum	177
Treatment with progesterone affects follicular steroidogenesis in anoestrous ewes	273
FSH	
Plasma follicle stimulating hormone in Merino ewes immunized with an inhibin-enriched fraction from bovine follicular fluid	39
Plasma FSH concentrations in seasonally anoestrous ewes induced to ovulate with repeated injections or continuous infusion of GnRH	53
Perioestrous patterns of circulating LH, FSH, prolactin and oestradiol-17 β in the gilt	205
Prepubertal and peripubertal changes in secretory patterns of LH and FSH in beef heifers	85
Genetics	
Embryonic mortality caused by maternal heat stress during mouse oocyte maturation	309
Genetic basis of variation in reproductive performance. 1. Ewe lambs treated with fluorogestone acetate and PMSG in a controlled environment	281
Gestation	
Factors affecting length of gestation and birth weight of Nili-Ravi buffaloes	195
Goat	
Doses of prostaglandin analogue "cloprostenol" by intravulvo-submucosal (IVSM) injections effective for the induction of oestrus	139
Gross and histological changes of the postpartum genitalia of Savanna Brown goats	65
Golden hamster	
Fibrinolytic activity in ovaries after gonadotrophic stimulation and hypophysectomy	301
Gonadotrophin releasing hormone	
Pituitary responses to a challenge test of GnRH and oestradiol benzoate in postpartum and regularly cyclic dairy cows	1
Plasma FSH concentrations in seasonally anoestrous ewes induced to ovulate with repeated injections or continuous infusion of GnRH	53
Histamine	
Uterine histamine content in mast-cell deficient (W/W ^v) mice during experimentally induced decidualoma formation	75
Horse	
Follicular population dynamics during the estrous cycle of the mare	219
Inhibin	
Plasma follicle stimulating hormone in Merino ewes immunized with an inhibin-enriched fraction from bovine follicular fluid	39
LH	
Effect of chronic treatment with bromocryptine on the corpus luteum function of the cow	95
Perioestrous patterns of circulating LH, FSH, prolactin and oestradiol-17 β in the gilt	205

Prepubertal and peripubertal changes in secretory patterns of LH and FSH in beef heifers	85
Use of altrenogest alone or in combination with PMSG to control the preovulatory LH surge in gilts	147
Mast cells	
Uterine histamine content in mast-cell deficient (W/W ^V) mice during experimentally induced deciduoma formation	75
Mouse	
Embryonic mortality caused by maternal heat stress during mouse oocyte maturation	309
Uterine histamine content in mast-cell deficient (W/W ^V) mice during experimentally induced deciduoma formation	75
Oestradiol	
Treatment with progesterone affects follicular steroidogenesis in anoestrous ewes	273
Oestradiol benzoate	
Pituitary responses to a challenge test of GnRH and oestradiol benzoate in postpartum and regularly cyclic dairy cows	1
Oestradiol-17β	
Perioestrous patterns of circulating LH, FSH, prolactin and oestradiol-17 β in the gilt	205
Oestrogens	
Epitesterone and oestrogen concentration in plasma of cows during induction of parturition with prostaglandin F _{2α}	245
Oestrous cycle	
Effect of chronic treatment with bromocryptine on the corpus luteum function of the cow	95
Follicular population dynamics during the estrous cycle of the mare	219
Follicular populations during the estrous cycle in heifers.	
I. Influence of day	165
II. Influence of right and left sides and intraovarian effect of the corpus luteum	177
Perioestrous patterns of circulating LH, FSH, prolactin and oestradiol-17 β in the gilt	205
Oestrus induction	
Doses of prostaglandin analogue "cloprostenol" by intravulvo-submucosal (IVSM) injections effective for the induction of oestrus in goats	139
Oestrus synchronization	
Genetic basis of variation in reproductive performance. 1. Ewe lambs treated with fluorogestone acetate and PMSG in a controlled environment	281
Induction of ovulatory oestrus in true anoestrous buffaloes during low breeding season	233
Use of altrenogest alone or in combination with PMSG to control the preovulatory LH surge in gilts	147
Oocytes	
Embryonic mortality caused by maternal heat stress during mouse oocyte maturation	309
Ovary	
Effect of a teaser bull on ovarian and behavioural activity of suckling beef cows	263
Fibrinolytic activity in ovaries of rats and golden hamsters after gonadotrophic stimulation and hypophysectomy	301
Follicular populations during the estrous cycle in heifers.	
II. Influence of right and left sides and intraovarian effect of the corpus luteum	177
Postpartum ovarian activity, uterine involution and fertility in indigenous buffaloes at a selected village location in Sri Lanka	115
Ovulation induction	
Induction of ovulatory oestrus in true anoestrous buffaloes during low breeding season	233

Plasma FSH concentrations in seasonally anoestrous ewes induced to ovulate with repeated injections or continuous infusion of GnRH	53
Parturition induction	
Epitestosterone and oestrogen concentration in plasma of cows during induction of parturition with prostaglandin $F_{2\alpha}$	245
Photoperiod	
Growth, testicular and endocrine function of boars exposed to 8, 16 or 24 hours of light daily before puberty	239
Pig	
Growth, testicular and endocrine function of boars exposed to 8, 16 or 24 hours of light daily before puberty	239
Perioestrous patterns of circulating LH, FSH, prolactin and oestradiol- 17β in the gilt	205
Use of altrenogest alone or in combination with PMSG to control the preovulatory LH surge in gilts	147
Placenta	
Factors related to the etiology of retained placenta in dairy cattle	251
PMSG	
Fibrinolytic activity in ovaries of rats and golden hamsters after gonadotrophic stimulation and hypophysectomy	301
Genetic basis of variation in reproductive performance. 1. Ewe lambs treated with fluorogestone acetate and PMSG in a controlled environment	281
Use of altrenogest alone or in combination with PMSG to control the preovulatory LH surge in gilts	147
Postpartum rebreeding interval	
Gross and histological changes of the postpartum genitalia of Savanna Brown goats	65
Progesterone	
Effect of chronic treatment with bromocryptine on the corpus luteum function of the cow	95
Progesterone receptors in the endometrium of normal and repeat-breeder cows	11
Treatment with progesterone affects follicular steroidogenesis in anoestrous ewes	273
Prolactin	
Effect of chronic treatment with bromocryptine on the corpus luteum function of the ewe	95
Perioestrous patterns of circulating LH, FSH, prolactin and oestradiol- 17β in the gilt	205
Prostaglandins	
Doses of prostaglandin analogue "cloprostenol" by intravulvo-submucosal (IVSM) injections effective for the induction of oestrus in goats	139
Effect of uterine luminal perfusion of $PGF_{2\alpha}$ and PGE_2 on uterine vasomotor response and $PGF_{2\alpha}$ output in cyclic cattle	103
Epitestosterone and oestrogen concentration in plasma of cows during induction of parturition with prostaglandin $F_{2\alpha}$	245
Puberty	
Prepubertal and peripubertal changes in secretory patterns of LH and FSH in beef heifers	85
Rat	
Fibrinolytic activity in ovaries of rats and golden hamsters after gonadotrophic stimulation and hypophysectomy	301
Reproductive performance	
Genetic basis of variation in reproductive performance. 1. Ewe lambs treated with fluorogestone acetate and PMSG in a controlled environment	281

Repeatability of reproductive performance of beef bulls as yearlings and two-year-olds at pasture	21
Retained placenta	
Factors related to the etiology of retained placenta in dairy cattle	251
Seasonal variation	
Influence of season on characteristics of the ejaculate from bulls in an artificial insemination centre in Nigeria	187
Seasonal variation in the semen characteristics of Muturu (<i>Bos brachyceros</i>) bulls	31
Semen characteristics	
Influence of season on characteristics of the ejaculate from bulls in an artificial insemination centre in Nigeria	187
Seasonal variation in the semen characteristics of Muturu (<i>Bos brachyceros</i>) bulls	31
Sheep	
Behavioural and hormonal responses of sexually-experienced Ile-de-France rams to oestrous females	293
Genetic basis of variation in reproductive performance. 1. Ewe lambs treated with fluorogestone acetate and PMSG in a controlled environment	281
Plasma follicle stimulating hormone in Merino ewes immunized with an inhibin-enriched fraction from bovine follicular fluid	39
Plasma FSH concentrations in seasonally anoestrous ewes induced to ovulate with repeated injections or continuous infusion of GnRH	53
Sterol sulfatase activity in the reproductive tract of the ewe	129
Treatment with progesterone affects follicular steroidogenesis in anoestrous ewes	273
Spermatogenic activity	
Of the left and right testes of hemicastrated and intact cockerels	157
Sperm capacitation	
Sterol sulfatase activity in the reproductive tract of the ewe	129
Sterol sulfatase	
Sterol sulfatase activity in the reproductive tract of the ewe	129
Teaser bull	
Effect of a teaser bull on ovarian and behavioural activity of suckling beef cows	263
Testis	
Growth, testicular and endocrine function of boars exposed to 8, 16 or 24 hours of light daily before puberty	239
Spermatogenic activities of the left and right testes of hemicastrated and intact cockerels	157
Uterine involution	
Postpartum ovarian activity, uterine involution and fertility in indigenous buffaloes at a selected village location in Sri Lanka	115
Uterine histamine content in mast-cell deficient (W/W ^v) mice during experimentally induced decidualoma formation	75
Uterus	
Effect of uterine luminal perfusion of PGF _{2α} and PGE ₂ on uterine vasomotor response and PGF _{2α} output in cyclic cattle	103
Gross and histological changes of the postpartum genitalia of Savanna Brown goats	65
